

The **PEL180 Bag Compactor** reduces weekly waste collections, saving money on waste disposal costs. The installation of the PEL bag compactor will create space by reducing the number of bins required to store waste allowing for a smaller, cleaner and tidier waste storage area.

BENEFITS OF THE PEL180 BAG COMPACTOR

- The PEL180BC allows waste to be compacted into manageable bags.
- Compresses up to 10 plastic bags into 1 (depending on material used).
- The PEL180BC is mounted on two wheels and so it can be easily moved close to a source of waste, making waste handling more efficient.

TECHNICAL SPECIFICATIONS

Dimensions (WxDxH)	645 x 1013 x 1711 mm
Weight	191kg

WHAT OUR CUSTOMER HAVE SAID ABOUT THE PEL BIN COMPACTOR PRODUCT RANGE

"Our site is very tight on space and we have no room for additional bins. The PEL Bin Compactors allow us to maximise the amount of waste we get into the bins"

- **Malcolm McConkey, McDonald's**

"We use the PEL Bin Compactor on both our general waste bins and our recycling bins. We have greatly reduced our waste costs and have reduced the number of bins in the yard which frees up space and tidies the place up. I would recommend the PEL Bin Compactor to any nursing home"

- **Peter Ward, Maintenance Manager, Silverstream Group**
