

The **PEL360 litre Little Foot Bin Compactor** will compact the contents of up to 3 bins into 1 bin. Waste volume and waste disposal costs are reduced by up to 66%, allowing for smaller, cleaner, and tidier waste storage areas.

**BENEFITS OF THE PEL360 BIN COMPACTOR**

- PEL360BC creates space by reducing number of bins required to store general, recycling and food waste streams.
- The two-handed operational management system makes it a safe and easy machine to use.
- The PEL360BC is primed and finished with a hard wearing powder top coat making it suitable for both indoor and outdoor use.

Capacity	3:1
Colour	Green
Operating Noise	75dB (A)

**WHAT OUR CUSTOMER HAVE SAID ABOUT THE PEL BIN COMPACTOR PRODUCT RANGE**

‘Our site is very tight on space and we have no room for additional bins. The PEL Bin Compactors allow us to maximise the amount of waste we get into the bins’  
 - *Malcolm McConkey, McDonald’s*

‘We use the PEL Bin Compactor on both our general waste bins and our recycling bins. We have greatly reduced our waste costs and have reduced the number of bins in the yard which frees up space and tidies the place up. I would recommend the PEL Bin Compactor to any nursing home’  
 - *Peter Ward, Maintenance Manager, Silverstream group*
