

The PEL660 Bin Compactor will compact up to 3 bins into one bin and is suitable for compacting general, recycling and food wastes. Waste volume and waste disposal costs are reduced by up to 66% whilst allowing for smaller, cleaner and tidier waste storage areas.

BENEFITS OF THE PEL660 BIN COMPACTOR

- The PEL660BC is primed and finished with a hard wearing powder top coat making it suitable for both indoor and outdoor use.
- The reduction of waste volume lowers the necessity for excessive waste collections. This contributes to reducing your overall carbon foot print.
- The two handed operational management systems makes this machine safe and easy to use.

TECHNICAL SPECIFICATIONS

Dimensions	1390 x 995 x 1835mm
Weight	287kg
Power Supply	Power supplied via a 13 Amp 3 Pin Single Phase Plug / Solar powered option available
Material	Hard-wearing powder top coat with galvanised head
Capacity	3:1
Colour	Green
Operating Noise	75dB (A)

WHAT OUR CUSTOMER HAVE SAID ABOUT THE PEL BIN COMPACTOR PRODUCT RANGE

‘Our site is very tight on space and we have no room for additional bins. The PEL Bin Compactors allow us to maximise the amount of waste we get into the bins’
 - *Malcolm McConkey, McDonald’s*

‘We use the PEL Bin Compactor on both our general waste bins and our recycling bins. We have greatly reduced our waste costs and have reduced the number of bins in the yard which frees up space and tidies the place up. I would recommend the PEL Bin Compactor to any nursing home’
 - *Peter Ward, Maintenance Manager, Silverstream group*
