

PEL2000A

MILL SIZE BALER

The **PEL2000A** Baler is ideal for any premises producing large quantities of recyclable wastes. Waste volume and disposal costs are reduced by up to 90%.

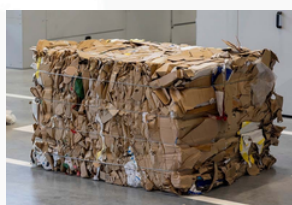

HIGHLIGHTS

➤ The PEL2000A creates more space by removing the need for extra waste bins or skips to store recyclable materials.

➤ The PEL2000A baler is user-friendly, featuring a wide aperture and a lever-action door handle that eliminates the need to manually break down large cardboard or plastic.

➤ Produces bale weighing 120-200kg

➤ Automatic bale cycle with a 40 second cycle time.
